Infrastructure-3
Rocky Mountain Region
“The City We Have, The City We Want”**

Session 1b: Is Any City Sustainable in the Current Paradigm?

Max Kirschbaum
Director of Public Works & Utilities
April 5, 2019

Is any city sustainable in the current paradigm?

Are we taking care of what we own?

Can we handle building more?

Is any city sustainable in the current paradigm?

Simple, pragmatic approach

- Asset inventory
- Condition assessment
- Future growth
- Capital Investment Plan
- Revenues and expenses

Is any city sustainable in the current paradigm?
